Just yesterday, Trump attacked me on live TV in the Oval Office, this time calling me "a total crook," "a horrible, horrible human being," and "a sick person."

This is a coordinated effort from Trump and his allies to discredit my work and punish me for holding them accountable and stopping their chaos agenda.

I'm staying focused on upholding the law - not on personal attacks, no matter who they come from.

But I need your help to fight back against this latest assault. Can you rush a \$25 donation or more right now to help me defend the rule of law?
